Dear Arizona Corporation Commission:

I am requesting that APS not be allowed to place digital meters on the two APS meters located on our property. The analog meters we have now perform well and we do not wish to have the technology involved in digital meters on our property. When we drew the power to our property, we were assured that we could have analog meters. The change might cause us to return to complete solar power, which is still on our property. This would cause the loss of two customers to APS and not be of benefit to them or us. Thank you for your consideration of this issue.

Sincerely,

Marsha Honn *William Sullivan*
